EDUCATION

THE ODIN PROJECT

Full Stack Web Development (JavaScript Track)

Completed

GOOGLE CYBERSECURITY PROFESSIONAL CERTIFICATE

Coursera

CISCO NETWORKING ACADEMY

Introduction to Cybersecurity, Network Defense, Endpoint Security, Networking Devices & Initial Configuration

CBSE SENIOR SCHOOL CERTIFICATE (12TH)

TECHNICAL SKILLS & PROJECTS

Programming: JavaScript (ES6+), TypeScript, Python, C, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Node.js, Express.js, FastAPI, Kotlin, Electron

Databases: MongoDB, PostgreSQL, SQLite

Tools & DevOps: Git, GitHub Actions, Docker, Linux (Arch), CI/CD, Bash, VS Code, Wireshark

Security: SIEM (Microsoft Sentinel), ISO 27001, NIST CSF, Threat Analysis, Incident Response

P-Stream: Streaming Platform

github.com/workbydivyanshu/p-stream

- Full-stack streaming platform for movies and TV shows with video delivery optimization, user authentication, and a fully responsive UI. Focused on performance and SEO.
- Technologies: Next.js, TypeScript, Tailwind CSS, Node.js

MultifariousAI: Multi-AI Chat Platform

github.com/workbydivyanshu/multifariousAI

- Free & open-source multi-AI platform to chat with 100+ AI models. Integrates OpenRouter free tier and local Ollama models with real-time streaming.
- Technologies: Next.js, TypeScript, OpenRouter API, Ollama, REST API

Vartalap: Real-Time Messaging

github.com/workbydivyanshu/vartalap-app

- Modern, open-source instant messaging platform with Discord-like functionality. Full-stack real-time messaging with WebSocket communication.
- Technologies: React, TypeScript, Node.js, MongoDB, Socket.IO, Express.js

Cheatsheets: Developer Reference

github.com/workbydivyanshu/cheatsheets

- Comprehensive website featuring cheatsheets for 100+ coding languages. Built with Next.js 15, TypeScript, Tailwind CSS, and Shiki for syntax highlighting.
- Technologies: Next.js 15, TypeScript, Tailwind CSS, Shiki

Twenty-Twenty-Twenty: Android Eye Strain App

github.com/workbydivyanshu/twenty-twenty-twenty

- Mobile app implementing the 20-20-20 rule to reduce digital eye strain. Features session timer, break reminders, compliance tracking, and analytics dashboard.
- Technologies: Kotlin, Android, Web, Foreground Service, Logging

Search Light GNOME 50

github.com/workbydivyanshu/search-light-gnome50

- Fork of search-light GNOME extension with GNOME 50 (Fedora 44) compatibility fixes. Brings spotlight-style search to the GNOME desktop.
- Technologies: JavaScript, GNOME Extension API, GTK

RELEVANT EXPERIENCE

Incident Management & Governance

Jul 2025 – Sep 2025

- Developed three incident response playbooks (Phishing, Malware, Suspicious Logins) with defined escalation procedures and role-based responsibilities aligned to ISO 27001 controls.
- Built Microsoft Sentinel dashboards to visualize incident metrics and compliance readiness.

Endpoint Security Assessment

May 2025 – Jun 2025

- Performed endpoint security evaluations on Windows and Linux using open-source EDR tools.
- Documented Indicators of Compromise (IoCs), impact analysis, and remediation plans using the incident response lifecycle framework.

Network Traffic Monitoring

Mar 2025 – Apr 2025

- Analyzed network traffic for anomalies and potential threats using Wireshark and firewall tools.
- Delivered firewall policy and logging improvement recommendations aligned with governance and compliance standards.
